

HOW DO I KNOW IF I NEED AN INTERIOR DESIGNER?

You may benefit from working with an interior designer if you want:

- Creative design solutions that you may not have thought of
The experience and knowledge of an interior designer can help you solve your design problems. Even the smallest project presents challenges and needs careful planning.
- To save money and prevent costly mistakes
There are so many choices out there! How do you plan and choose wisely? An interior designer has the experience that can guide you toward the best plan and product selection for you.
- Access to the best products, resources and services
You may not know where to start with your project and who to go to. Interior designers work with the *best* carpenters, painters, and other service providers available.
- To save time and money
Designers can help you with your project from concept to completion with minimal hassle.
- To define your personal style or corporate image
An interior designer can help you unify design elements that make your home or office "picture perfect."

FACTS:

- Nearly 90% of persons who used an interior designer for past home improvement projects were satisfied with the services the designer provided.
- 92% said that the designer listened to what they wanted and did not try to coerce them into a solution or style they did not want
